35) Submitted :—

The Director has recommended in his no. Oc 2503 d 29.4.21 forwarding the proceedings of the meeting of the Special committee, that the request of Mr. S. G. Sastri to be given some extra remuneration for being in charge of the Gas House, deserves favourable consideration

36) In his subsequent letter d 24.8.21 (Sl. 10) the Director recommends grant of extra allowances to four workmen at Rs. 5, Rs. 3, Rs. 3 & Rs. 2 per mensem respectively. This comes to Rs. 156 per annum.

37) In regard to the remuneration claimed by Mr. Sastri the G.O. passed in Jan. 1921 asking the Director Ice to make other suitable arrangements for charge of the Gas plant and to relieve the Ind. chemist of such charge is for consideration. Apparently the Industrial chemist has not been relieved of such charge, and whether any remuneration should be given to him now in view of the Ex A Secretary's

No. 9.C.4982-7 / 9tc 98-21-6 dt 23.3.22

OFFICIAL MEMORANDUM.

Representations have been made by the Departments and Institutions consuming Gas from the Gas Plant under the control of the I & C. Deptt (vide ~~referred in~~ C.O.No. 1536-41/I&C. 319-30-32 dated 6-9-31) that the supply is ~~xxdx~~ inadequate and irregular. While the plant is reported to be worked to its maximum capacity it has not been found possible to meet the demand of some institutions fully. It is therefore necessary to arrive at ~~some~~ an arrangement, by which the entire output of gas may be distributed in the most satisfactory manner among the various consuming institutions in accordance with ~~their~~ actual requirements.

2 Government are accordingly pleased to appoint a Committee consisting of the marginally noted members to ~~go into~~ investigate the question of regulating the supply of gas to the various institutions ~~referred to~~ and ~~to~~ submit a report by the 30th of April 1922.

By order,

Summary of the Proceedings of the Sub-Committee appointed to submit recommendations to Government about a continuous supply of gas to all the laboratories.

------- 0 ----- 0 ------

The meeting was held at the office of the Director of Agriculture on Wednesday the 5th April 1922 at 8-30 A.M. The following were present.

Dr. L. Coleman (Chairman)
C. S. Balasundaram, Iyer, Esq., B. A.,
P. G. D'SOUZA, Esq., B. A., B. L.,
Prof. F. L. Usher, B. Sc.,
Dr. A. K. Pani.
Dr. B. N. Iyengar (By permission of the Chairman)
Mr. S. G. Sastry, (Secretary).

After a thorough discussion the following resolutions were recorded.

i) The Committee are satisfied that the present inadequacy of the gas supply is due to increased demand on account of increased work in all the laboratories. Every one of the laboratories will be requested to send in a statement to the Secretary giving an account of the increase of work from year to year for the past ten years.

2) The Committee are satisfied that the increased cost is due partly to the greater amount of gas used in the laboratories and partly to increased cost of raw materials which is double of what it was previously.

3) The Committee are of opinion that the Central College should have its own gas plant to supply her own laboratories. The plant now working at the Victoria Hospital may be transferred to the Central College.

4) In case the gas plant at the Victoria Hospital is to be shifted

P.T.O.

shifted to the Central College, then, the Committee are of opinion that the Vani Vilas Institute should be provided with a small gas plant, similar to the one now working at Tumkur.

5) The Committee are of opinion that in case the Central College is to have her own gas plant, the present plant will be able to cope with the demand of the three following laboratories, namely:- the Agriculture, Public Health and the Collegiate High School laboratories.

6) The Committee are opinion that in view of the ever increasing work in the Agricultural Department and also in view of the increased demand from the new laboratory of the Collegiate High School, the cost of maintaining the present plant will not be very much less than the present budget grant.

7) The Committee are of opinion that the three meters (in disuse for over 16 years) may be tried and if they are found to be in working order they may be utilized to check the consumption of Gas in the various laboratories.

8) The Committee are satisfied that there is practically no wastage of Gas in any of the laboratories and they are of -- opinion that the introduction of any controlling check will cost more than the quantity of gas that can be saved by these means.

9) The Committee are of opinion that if the Central College should have her own gas plant, the expenses connected with the present gas plant may be provided for, in one consolidated budget and no separate provision need be made severally in the budgets of other departments using gas.

10) The Committee are of opinion that the cost of removal of the present gas house to another site is likely to be very high, and hence they recommend for the time being at least, the gas plant may remain where it is.

P. G. D'SOUZA, ESQ., B.A., B.L.,

Director of Industries and Commerce in Mysore

Bangalore (India)

28 AUG 1922

To

The Secretary to Government,

General Department,

Bangalore.

SIR,

4456 91-5-22

In continuation of this office No.O.C.2503 of the 29th April'22 forwarding copy of the proceedings of the Gas Sub Committee, I have the honour to forward herewith for the information of Government copies of Industrial Chemist's Nos.415 of 14-8-1922 & 500 of the 21st.idem and to request you to obtain very early orders of Government on the Committees proposals. The plant is not capable of bearing the demand on it and apart from a break down there is a great risk of accidents. The ----- University and Education authorities may be asked to make immediate -- arrangements for supply of Gas to them separately. In the meantime the extra allowance recommended to the staff may be sanctioned for the extra work they do.

I have the honour to be,

Sir,

Your most obedient servant,

P. Amruthaswamy

For DIRECTOR.

(Absent from Headquarters on Tour.).

SDN.

To

The Superintendent of

Gas House, Bangalore.

Sir,

To keep an uniform supply of gas without giving room for --- complaints, we are compelled to work on Sundays and other authorised general Holidays. It is only on these days that we can attend to our domestic affairs. We are compelled to sacrifice our sleep specially on gas making days by working during nights for 10 to 12 hours, as the case may be and this has made us week in health. Owing to the above circumstances we most humbly approach you to --- grant us extra allowances for these days.

I beg to remain,

Sir,

Your most obedient servant,

Sd.N. Chinnappa.
14-8-1922.

No.415/ 14-8-1922.

Submitted to the Director of Industries & Commerce.

I know the workmen of the gas are compelled to work without any rest, even on Sundays and General Holidays. It is difficult to cope with the demand. I shall not be responsible if anything goes wrong.

In view of the extra work that is being done I recommend an extra allowance of the wages from the Imprest as follows:-

1) Chinnappa Rs 5/- a month.
2) Ramiah " 3/- "
3) Javariah " 3/- "
4) . . . . " 2/- "

I request orders.

Sd.S.G. Sastry.
14-8-1922.

for Director.

SDN.

Letter No.500 dated 21st. August 1922, from the Industrial Chemist in charge, Government Soap Factory, Bangalore, to the Director of Industries & Commerce in Mysore, Bangalore.

GAS HOUSE AFFAIRS.

I have the honour to respectfully place the following for your --- kind consideration and orders.

1) Recently I made a representation on behalf of the workmen for the increased wages for the over time work they are doing. I request your sanction for the same. Even the present supply of gas cannot be maintained continuously if the workmen do not put in over time. If they refuse to work on holidays there will be an interruption of gas service.

2) The increase in the consumption is going up day by day. I -- have already represented the matter to you in my letter No.213 dated 25-7-1922 and on your orders I have sent a circular round pleading for economy in the use of gas. It is quite probable that gas service at nights may have to be cut off.

3) There are three retorts working at full pressure for over --- three years. The strain has been great and continues to be great. All my representations for an expansion have resulted in nothing. If there should be a breakdown of the plant, the University Laboratories, the Agricultural Laboratory, the Public Health Laboratory and the Collegiate High School Laboratories will be compelled to go without gas for several months.

I request the Government maybe pleased to look into the matter and do the needful.

P. G. D'SOUZA, ESQ., B.A., B.L.,

Director of Industries and Commerce in Mysore

Bangalore (India)

GEN. & REV. SECT.
9 OCT 1922

To

The Secretary to the Government of Mysore,

General Department,

Bangalore.

SIR,

I have the honour to forward herewith for the information of Government the Industrial Chemist's endorsement No:780 dated the 20th September 1922, on the application of M.L.Sivaswamy, Assistant - Accountant, recommending the grant of an allowance of ₹10/= for looking after the extra work relating to the gas house and to request you to kindly obtain the sanction of Government to the payment of an allowance of ₹ 10/= to the Accountant, the extra cost being met out of the grant allotted for the working of the Gas House. The extra allowance will be withdrawn as soon as a separate gas plant is installed for the Central College.

I have the honour to be,

Sir,

Your most obedient servant,

DIRECTOR.

BV)

To

The Industrial Chemist in charge of Governmen Soap Factory,

Bangalore.

Sir,

I beg to represent that since the transfer of "Gas House from the Agricultural Department to the Department of Industries Department i.e., from April 1920, I have been directed to look after the correspondence and accounts concerned in addition to my legitimate work in the Government Soap Factory.

Besided this, owing to the cancellation of sole agency, my work as Assistant Accountant is becoming very heavy so as to demand my presence at times both in mornings and afternoons and sometimes during the holidays also; while my remuneration since July 1920 has been - - practically the same even though I am discharging the above duties.

Under the circumstances represented above, I request you to kindly recommend the grant of an allowance of Rs 15/=per month from 1st July 1922.

I beg to remain,

Sir,

Your most obedient servant,

Sd/- M.L.Sivasawmy.

Bangalore,
Dated 2-9-1922.

======

No: 780/20-9-1922.

Submitted to the Director of Industries and Commerce in original for orders. I recommend an increase of Rs 10/=(as an allowance) to M.L. Siwasawmy. He has looked after the extra work relating to the Gas House for over two years and he deserves every consideration.

Sd/-S.G.Sastry,
20/9-22.

To

B. Venkoba Rao, Esq., B.A.,
Secretary to the Govt. of H. H.
the Maharaja of Mysore, Genl. Deptt.,
B a n g a l o r e.

Sir,

With reference to your letter No.I.C.2203-4/I & C 98-21-13 of the 11th instant I have the honour to state that I agree entirely with the conclusions arrived at by the special Committee.

The work of this Department is continuously expanding and the Chemical work especially requires continuously increasing supply of gas to carry out the many analyses that the section has to under take. Unless some such arrangement as the Committee proposes is made it will, I feel sure, be impossible to carry on much longer.

The meters referred to in the report are here and will be handed over to the officer in charge of the gas installation as soon as he desires. If they are found to be in working order, they will enable him to ascertain if any considerable quantity of gas escapes through leakage in the mains.

I have the honour to be,
Sir,
Your most obedient servant,

Director of Agriculture.

Proceedings of the Government of H.H. the Maharaja of Mysore.

R e a d;-

O.M. No.4982-7/I.&C.98-26-6 dated 23rd March 1923, appointing a Committee to investigate and report upon the question of regulating the supply of gas from the Gas Plant under the control of the Department of Industries and Commerce.

2. Endorsement No.OC.2503 dated the 29th April 1923 from the Director of Industries and Commerce, forwarding a copy of the summary of the proceedings of the meeting of the Committee held on 5th April 1923.

3. Letter No.348 dated 27th June 1923 from the Senior Surgeon, stating that the transfer of t he gas Plant from the Victoria Hospital to the Central College may be ~~effected~~ ordered to be effected early.

4. Correspondence ending with letter No.OC. 2452 dated 24th August 1923 from the Officiating Director of Industries and Commerce, stating that as the present plant is not capable of bearing the demand on it, the University and the Education Department may be requested to make early and separate arrangements for their g supply and recommending that the marginally noted workmen of the Gas House may be paid wages as noted against their names conside that they are required to work without re even on Sundays and Holidays.

@ Chinnapa Rs.5 / Ramiah " 3 / Javariah " 3 / Another " 2 } Per mensem

5. Further correspondence ending with No.OC.1153 dated 6th October 1923 from t Officer recommending an allowance of Rs. per mensem to M. L. Sivaswami, Assistan

Accountant for looking after the extra work connected with the Gas House, and stating that the allowance will be withdrawn as soon as a separate plant is installed for the Central College.

6. Letter No. R.O.C.707 dated 13th October 1922 from the Director of Agriculture, expressing his agreement with the resolutions passed by the Special Committee referred to above and stating that the meters referred to will be handed over to the Officer in charge of the Gas House as soon as he desires.

Order No.IC. I.C.5660-64

Dated 14-3- 1923.

The Special Committee's Report is recorded and printed as an annexure. The several recommendations are

(1) That The Central college should have its own Gas Plant, the plant now working in the Victoria Hospital being transferred to the College.

(2) That The Vanivilas Institute should be provided with a small gas plant.

(3) That The 3 meters in the Agricultural Department may be tried and, if they are found fit in order, ~~they may~~ be utilised to check the consumption of gas in the several laboratories.

(4) That When the Central College has a separate plant the expenses connected with the present gas plant may be provided for in one consolidated budget and no separate provision ~~need~~ be made severally in the budgets of the consuming Departments.

(5) That As the cost of removing the present Gas House to another site is likely to be very heavy it may remain where it is, and the control of the Gas House ~~should be~~ left to the Department of Industries and Commerce.

In

146

2. In regard to items (1) and (2) estimates have been called for from the Inspector-General of Education and the Registrar of the Mysore -- University and separate orders will issue after receipt of the estimates.

3. As recommended by the Committee the -- meters will be taken over by the Officer in charge of the Gas House and made use of for checking the consumption ~~by~~ in the several laboratories.

4. As regards item No. (4) Government consider that the cost of the Gas House may be provided for in the budget of the Department of -- Industries and Commerce as recommended by the -- Committee, needful provision being made when framing the budget of the coming year.

5. The Gas House will continue to be under the management of the Department of Industries and Commerce as hitherto. The extra wages to the 4 workmen and the allowance to the Assistant accountant recommended by the Director in his -- letters dated 24th August and 6th October 1922 are ~~also~~ sanctioned. These allowances should be discontinued as soon as the present pressure on the Gas House is relieved by the installation of -- separate plants in the Central College and the Vani Vilas Institute.*

Exd.—A. M. K.

No. I. C. 5660-64—I. & C. 98-21-17, DATED 14TH MARCH 1923.

ANNEXURE.

Summary of the Proceedings of the Sub-Committee appointed to submit recommendations to Government about a continuous supply of gas to all the laboratories.

The meeting was held at the office of the Director of Agriculture on Wednesday the 5th April 1922 at 8-30 A. M. The following were present. :—

Dr. L. C. Coleman, (Chairman)
C. S. Balasundaram Iyer, Esq., B.A.
P. G. D'Souza, Esq., B.A., B.L.
Professor F. L. Usher, B. SC.
Dr. A. K. Pani.
Dr. B. N. Iyengar (by permission of the Chairman).
Mr. S. G. Sastry, (Secretary).

After a thorough discussion the following resolutions were recorded :—

1. The Committee are satisfied that the present inadequacy of the gas supply is due to increased demand on account of increased work in all the laboratories. Every one of the laboratories will be requested to send in a statement to the Secretary giving an account of the increase of work from year to year for the past ten years.

2. The Committee are satisfied that the increased cost is due partly to the greater amount of gas used in the laboratories and partly to increased cost of raw materials which is double of what it was previously.

3. The Committee are of opinion that the Central College should have its own Gas Plant to supply her own laboratories. The plant now working at the Victoria Hospital may be transferred to the Central College.

4. In case the Gas Plant at the Victoria Hospital is to be shifted to the Central College, then, the Committee are of opinion that the Vani Vilas Institute should be provided with a small Gas Plant, similar to the one now working at Tumkur.

5. The Committee are of opinion that in case the Central College is to have her own Gas Plant, the present plant will be able to cope with the demand of the three following laboratories namely:—, the Agriculture, Public Health and the Collegiate High School Laboratories.

6. The Committee are of opinion that in view of the ever increasing work in the Agricultural Department and also in view of the increased demand from the new laboratory of the Collegiate High School the cost of maintaining the present plant will not be very much less than the present budget grant.

7. The Committee are of opinion that the three meters (in disuse for over sixteen years) may be tried and if they are found to be in working order they may be utilised to check the consumption of gas in the various laboratories.

8. The Committee are satisfied that there is practically no wastage of gas in any of the laboratories and they are of opinion that the introduction of any controlling check will cost more than the quantity of gas that can be saved by these means.

9. The Committee are of opinion that if the Central College should have her own Gas Plant, the expenses connected with the present Gas Plant may be provided for on one consolidated budget and no separate provision need be made severally in the budgets of other departments using gas.

10. The Committee are of opinion that the cost of removal of the present Gas House to another site is likely to be very high, and hence they recommend for the time being at least, the Gas Plant may remain where it is.

11. The Committee are of opinion that owing to the location of the Gas House in the compound of the Government Soap Factory and also owing to the difficulty of providing a separate entrance to the Gas House, the control of the Gas House should be left to the Department of Industries and Commerce.

W D 1755—GPB—22-3-23—380
